## Data Analysis Report

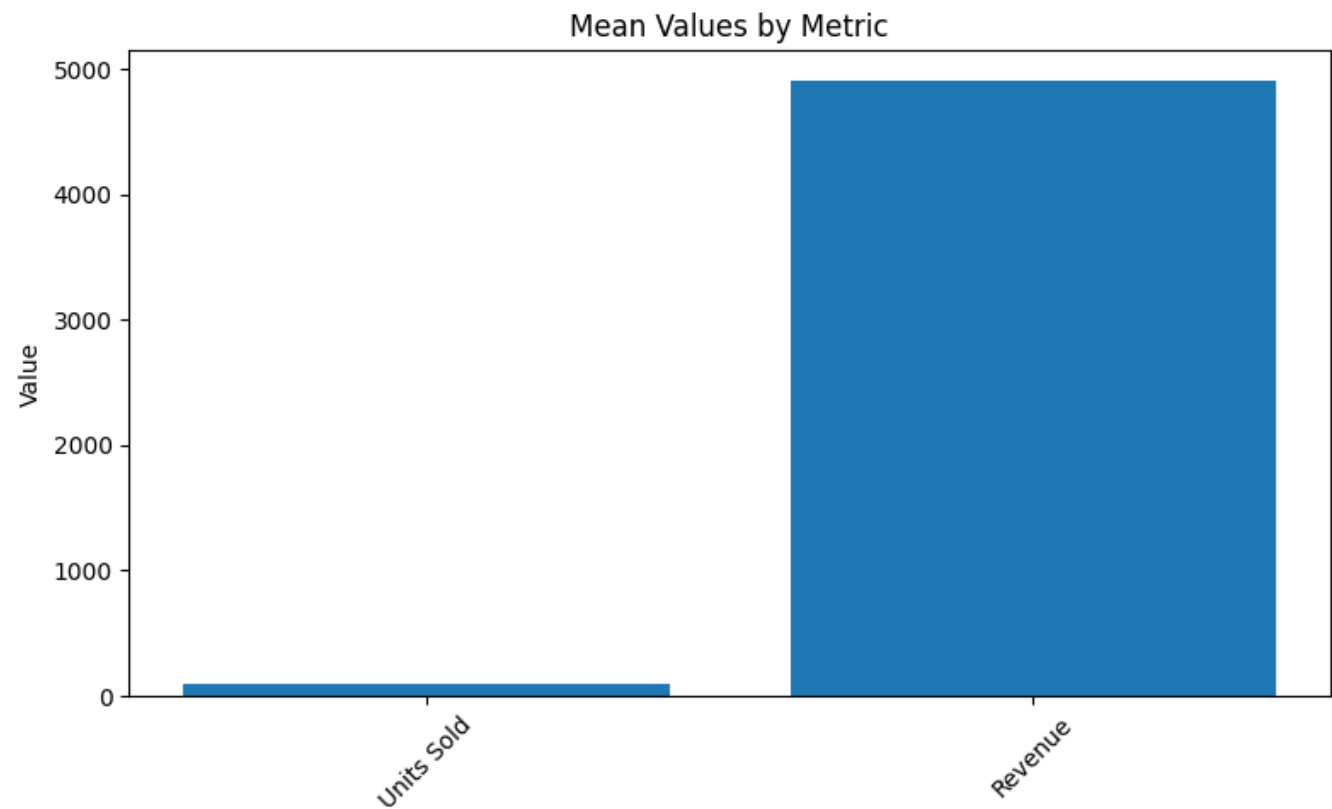

This report analyzes data from sample\_data.csv. The dataset contains 10 records with 5 fields each.

### Data Summary

The dataset contains the following numeric fields with these characteristics:

- Units Sold: Mean = 95.00, Median = 87.50, Range = 25.00 to 200.00
- Revenue: Mean = 4900.27, Median = 4375.38, Range = 2400.00 to 10000.25

### Data Visualization

### Sample Data

Date	Product	Category	Units Sold	Revenue
2023-01-01	Product A	Electronics	150	7500.50
2023-01-01	Product B	Furniture	30	4500.00
2023-01-01	Product C	Electronics	85	4250.75
2023-01-01	Product A	Electronics	90	4500.00

# Data Analysis Report

2025-06-23

2023-01-05	Product D	Clothing	120	3600.00
2023-01-06	Product B	Furniture	25	3750.00
2023-01-07	Product E	Electronics	200	10000.25
2023-01-08	Product C	Electronics	60	3000.50
2023-01-09	Product D	Clothing	80	2400.00
2023-01-10	Product A	Electronics	110	5500.75
